

CONNECTORS WITH ADJUSTABLE WATERTIGHT AND GAS-TIGHT SEALS MICRO WS/WGS/WGSM

7-16 mm

Description

Reusable connectors with adjustable rubber seal which provides a watertightness and gastightness in the longitudinal axis, closing the space between microduct wall and installed cable. The tightness is achieved by tightening the nut.

Connectors Micro WS with adjustable watertight seal

Connectors Micro WGS with adjustable watertight and gastight seal

Connectors Micro WGSM with adjustable watertight and gastight seal for connections between microducts

Technical specifications

Connectors Micro WS/WGS/WGSM	7	8	10	12	14	16
Outer diameter of microduct [mm]	7,0	8,0	10,0	12,0	14,0	16,0
Pressure resistance [bar]	15					
Installation temperature range [°C]	- 20 to + 50
